ADVENTURE**

## **South Sudan 14 days – The Youngest Country of Africa**

### **trip, nature, culture and sightseeing**

*We would like to propose a journey to a country that has been in existence only since 2011. The South Sudan, created after a long and bloody war, is the youngest country on the African continent. It is a country of many traditions and cultures. During our expedition, we will visit towns and villages belonging to Mundari, Boya, Lotuko/Otuho and Tampossa ethnic groups. We will be able to observe customs and traditions that are fading into the past, yielding to the pressure of civilisation. For nature lovers, but surely also for others, an unforgettable experience will be the visit in the Boma National Park. The South Sudan is one of the countries least visited by tourists, not only in Africa.*
